

MachineTech has been serving the Southeast since 1994, expanding from South Carolina into NC, VA, and WV in 2005. Founded by Rick Smith, with over 40 years of machine tool expertise, the family-run business includes his son and son-in-law, supported by a skilled sales and engineering team. With decades of experience in CNC milling, turning, and 5-axis, MachineTech delivers productive, cost-effective machining solutions tailored to each customer's needs.

1100 N Church Street | Charlotte, NC 28206

HURCO®

- Wide range of machines including 3 and 5-axis VMCs, turning centers, bridge mills, and double columns
- Easy-to-use conversational control with powerful NC capability
- Great fit for job shops, Tool Rooms and High Mix production

HIWACHEON

- The oldest South Korean machine tool builder
- Full line of high performance turning, milling, 5-axis machines
- Premium reliability and performance at a lower price point

TAKUMI

- High performance VMC's, Double Column Machining Centers, and 5-axis Machining Centers.

INDEX

- Better. Parts. Faster. The most advanced Multi-spindle Lathes, Swiss Lathes, and 5-Axis Mill/Turns on the market.

TAKAMAZ

- Compact, high-speed automated turning centers designed for high-volume production
- Specializing in .5" - 6" diameter parts

FUJI

innovative spirit

- Specializing in heavy duty automated turning applications
- Integrated gantry loaders standard—ideal for unattended, lights-out production

AVEREX

AVEREX AUTOMATION CO., LTD.

- Premium Horizontal Machining Centers designed for high production
- Reliability and performance at a lower price point than the competition

AIMS

ADVANCED INDUSTRIAL MEASUREMENT SYSTEMS
METROLOGY

- U.S.-made CMMs, CMM Rebuilds, and Custom Gauging
- Specializing in 5-axis Measurement
- Refurbished CMM Inventory

VISION WIDE

- Vertical and Horizontal machining centers, boring mills, and large 5-axis capability

AERO

AMERICA

- High Accuracy 5-axis Gantry Mills
- Blade Milling
- Traveling column horizontal 5-axis

EXPAND

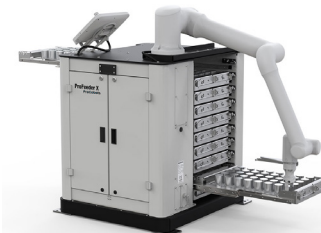

MACHINERY

- GENTURN Swiss Lathes
- Ganesh Manual and CNC lathes and Milling Machines

KINGSTON

- Manual and CNC lathes and milling machines

ProCobots

- Machine tending solutions designed for high mix job shop work
- Owned by Hurco, Made for Hurco machines

Agile

ROBOTIC SYSTEMS

- Machine tending solutions and custom automated robot cells
- Conversational easy to use robot programming
- Industrial Fanuc Robots
